Company & Product Presentation

Who is iComputer Solutions Inc.

- **iComputer Solutions Inc** is the newest member of our group of companies, complementing our diverse business ventures. What began as a visionary initiative focused on providing cutting-edge technological solutions has evolved into a company dedicated to serving the Corporate World. **iComputer Solutions Inc** now specializes in assisting decision-makers and IT representatives by helping them identify their unique needs and crafting tailored solutions to address them effectively.
- As a sister company to one of the largest IT retail chains in the Philippines, **iComputer Solutions Inc's** reach extends beyond the SMB/Enterprise sector. We are proud to offer the same high-quality products and services found in retail, ensuring that all customer segments benefit from our comprehensive offerings. In collaboration with our affiliates, we are committed to delivering exceptional products, unparalleled service, and outstanding after-sales support. Our goal is to be the market leader in the IT industry, driving innovation and excellence in every aspect of our business.

MISSION

"To significantly improve the lives of every Filipino by harnessing the power of technology, offering cutting-edge IT products and solutions that are both innovative and reliable. Our mission is to make these advanced technologies easily accessible, ensuring that individuals and businesses alike can leverage them anytime, anywhere, to drive progress, foster growth, and create lasting positive change in communities across the Philippines."

VISION

"To significantly improve the lives of every Filipino by harnessing the power of technology, offering cutting-edge IT products and solutions that are both innovative and reliable. Our mission is to make these advanced technologies easily accessible, ensuring that individuals and businesses alike can leverage them anytime, anywhere, to drive progress, foster growth, and create lasting positive change in communities across the Philippines."

Our Portfolio

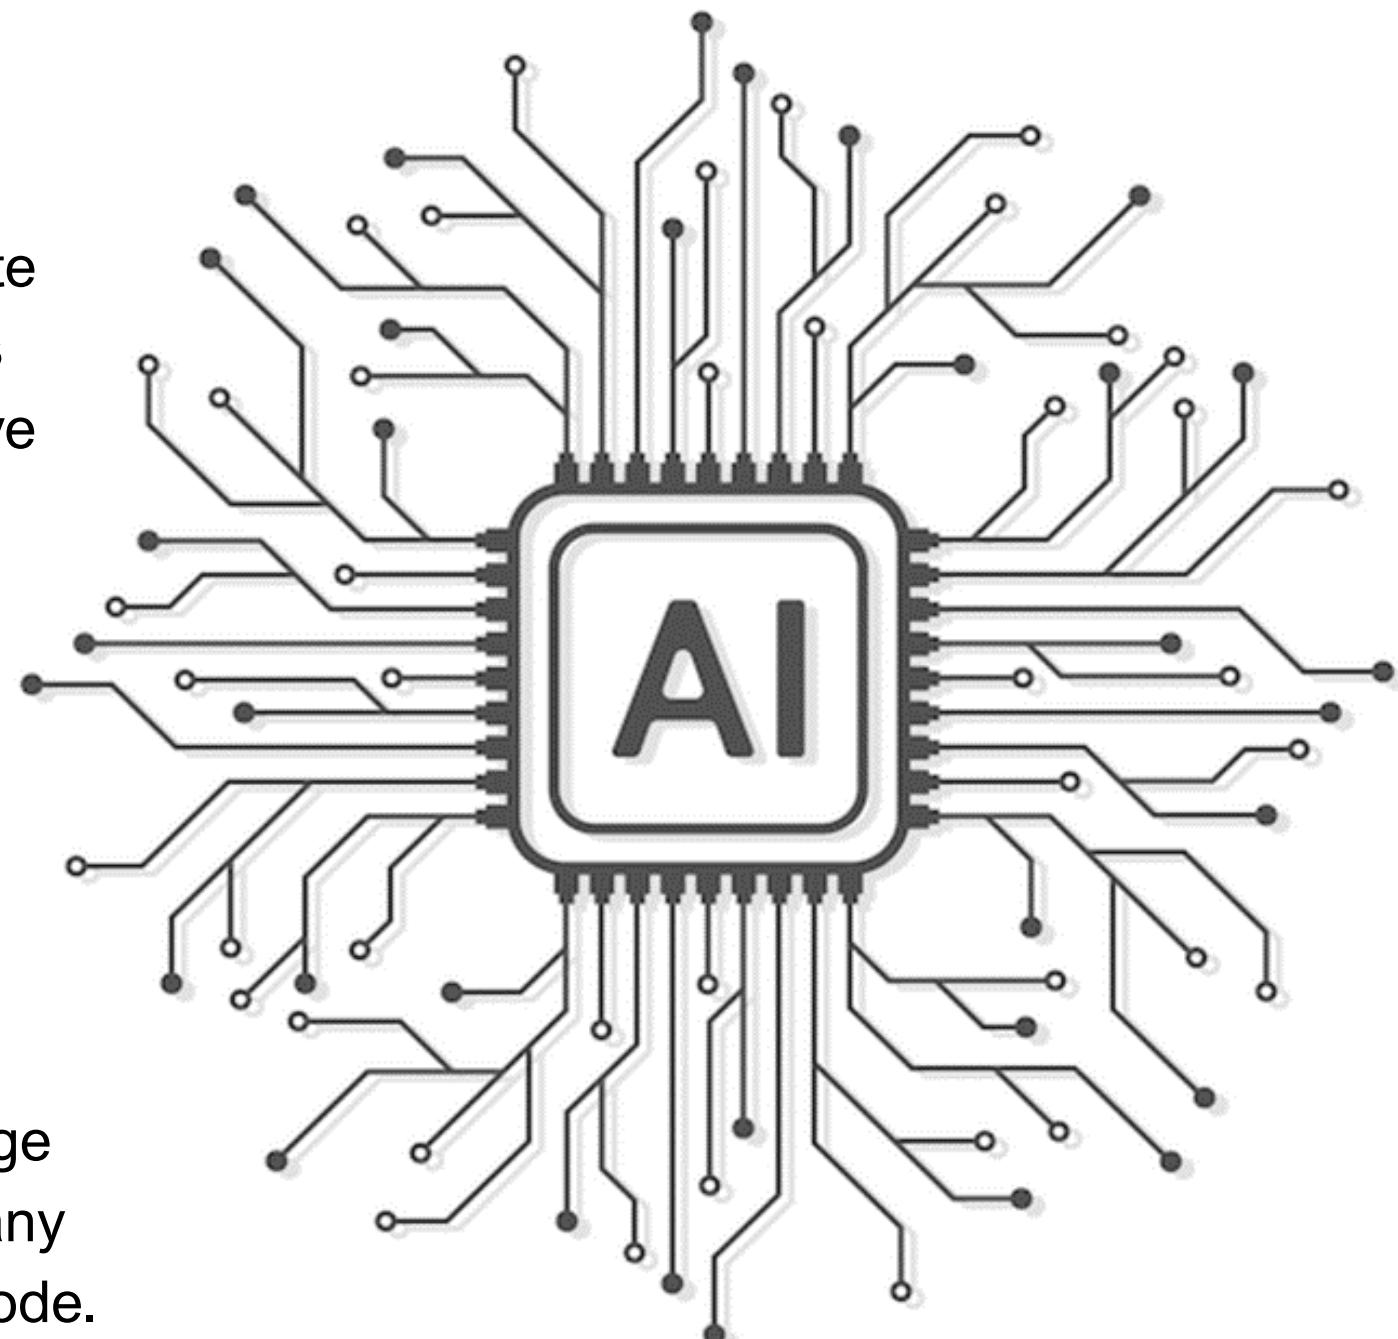

ARE WE AI READY?

Artificial Intelligence

AI is the ability of computer systems to simulate human intelligence to perform tasks. It allows businesses to automate processes and improve decision-making with data-driven insights.

Generate AI

GenAI is a subset of AI that can leverage large data sets to create high-quality content in many forms, like text, images, video, and software code.

Artificial intelligence (AI) and Generative AI (GenAI) are transforming business at an unprecedented pace, offering a variety of advantages that can give your business a competitive edge in a rapidly evolving landscape. They can unlock key insights from your data and elevate your productivity, customer experience, and innovation.
